

Introducing

SABR v1.0

Software Agile Baseband Radio

Powered by TapHere!® Radio

Available Fall 2020

Features

- 70MHz-6GHz continuous frequency coverage
- Enclosure kit included
- Native 12-bit quadrature up to 61.44 MS/s
- Size: 73.9 mm x 50.8 mm (@ 2"x3")
- Weight: 29 grams (@ 1.2 oz.)

Technology

- Powerful Artix FPGA
- SMA RF connectors
- Software-configurable filters
- USB Type C 3.2 gen 1 compatible
- Wideband Analog Devices Transceiver

Benefits

- Built on TapHere!® Radio Modular Software
- Compatible with Windows 10
- Ideal for low SWaP integration, Labs, HAMs, Hobbyists, DSP engineers
- Open Architecture & Flexible API
- Works with all popular SDR Software (ExtIO)

TapHere!® Radio. Designed, Built, and Supported in the USA.
